SUPPLY CHAIN MANAGEMENT (LOGISTICS)

IE-MIT
MIT-ZARAGOZA
MIT-MALAYSIA
OBJECTIVE

In today’s business environment, companies are looking to optimize production and reduce costs while efficiently reaching their customers, driving global supply chain management and logistics to the forefront of business strategy.
In recognition of this development and in alignment with the objective to enable professionals to quickly respond to the challenges of globalization, IE Business School, MIT Center for Transportation and Logistics (CTLI) in Cambridge, Massachusetts, Zaragoza Logistics Center in Spain and the Malaysia Institute for Supply Chain Innovation have partnered a Dual Degree: International MBA & Supply Chain and Logistics program in which participants will have the opportunity to earn both the International MBA degree at IE Business School and one of the following specialized titles:

- Master of Engineering in Logistics degree from the Supply Chain Management (SCM) program at the MIT Center for Transportation and Logistics (CTL) in Cambridge, Massachusetts, USA.
- Master of Engineering in Logistics & Supply Chain Management (ZLOG) at the Zaragoza Logistics Center (ZLC2) in Zaragoza, Spain.
- Master of Science in Supply Chain Management (MSCM) at the Malaysia Institute for Supply Chain Innovation (MISI), Malaysia.

This dual degree program is intended to prepare professionals for careers that combine general management capabilities with specialized logistics and supply chain management skills.
ADMISSIONS CRITERIA

Students will apply to both schools separately and be evaluated for admission by each based on respective requirements and criteria, including GMAT, GRE or IE Global Admissions Test (ieGAT) as applicable. For administrative identification, applicants for the dual degree program will be requested to indicate their intentions on their applications to both schools so that close consultation between both institutions’ admissions offices is facilitated. Please note that tuition scholarships supporting the dual degree program are only available if application and admission to both schools has been processed prior to commencement of either.

ADMISSIONS REQUIREMENTS

                      • Photo and copy of passport  
                      • Application Fee: 125 Euros |
DEADLINES

IE offers two intakes per year (January and September) and has a rolling admissions process meaning there are no deadlines. On the other hand, MIT-CTL/MISI and ZLC centers have one intake per year and review application deadlines in 2 to 3 rounds, depending on the institution. Therefore, students applying for the fall intake of the SCM/ZLOG/MSCM should not apply after the previous spring season*. Please note that those seeking financial support are strongly recommended to apply simultaneously to both institutions to ensure funding opportunities.

*Key dates are subject to annual change. Please check the corresponding program website found under ‘Admissions Requirements’ for the most up-to-date information.
