I. FACTS AND TRENDS

In 2014, as the world economy showed weak signs of recovery from the crisis, setting new levels of competitiveness in the job markets, the Career Management Center rose to the challenge of generating opportunities for IE students globally.

We are certainly very proud of our achievements. We strengthened the core career content in the program curricula; continued to provide personalized, sector-specific career advising and have seen an incremental exposure to recruiters all over the world. However, this is merely one aspect of the benefits that our well equipped International MBA students enjoy.

With the aim to train, advise and assist our students and alumni in their job search, we are happy to report that we have developed a well rounded approach to career development.

Our International MBA (IMBA) program is designed to limit time away from the workplace while providing a complete International MBA experience, which extends beyond academic achievement to include global networking, projects and business and leadership initiatives.
As a result, 92% of the 2013-2014 graduates secured a job within 3 months of graduation. Approximately 38% of the class joined companies in Consulting and Financial services but other sectors such as Consumer Goods (14%) and Technology (13%) continue to gain preference amongst our students.

With regards to functions, we have a strong 24% in Marketing & Sales, while a growing number accepted a job in Consulting (21%) and in Finance/Accounting (21%).

With regards to geographical destination, 35% of our graduates decided to work in Europe, and we saw an increase in placements in North America and Asia. Latin America also remains a preferred location for our graduates.

In terms of geographical mobility, Europeans (non EU) showed the highest mobility, in that, 17% accepted jobs in the Middle East, 30% in Europe (EU) and 9% in North America. Europe (EU) was also the region to receive the highest number of students from other regions, 11% from Latin America and 7% from Asia.

These new graduates joined the ranks of the more than 50,000 IE alumni who are based in more than 100 countries, in both public and private sectors and all types of industries with the aim of creating value for their communities.
Diversity is one of the values that distinguishes us the most. We strongly believe that our students learn not just from our faculty but also by interacting with classmates from diverse educational, professional and social backgrounds.

2. CAREER CHOICES

The diversity of our student body results in an interest in jobs in all types of companies: multinationals and SMEs, private and public, across a wide range of industries. It is a challenging situation for the Career Management Center, but it also allows us to serve all types of recruiters worldwide, making sure they always find a pool of qualified candidates among our students.

While Financial Services and Consulting are still the first industries of choice, Consumer Goods is becoming a very attractive sector for our students, accounting for 14%, while Technology accounts for 13%.

Regarding Functions, the main feature to highlight this year is an important increase to 24% in Marketing and Sales positions from functions other than Consulting and Finance, which still account for 42% of the total. This year we saw a rise in Operations and Logistics positions, from 9% to 12%.

Taking into account that our class profile has become much more global, with an increase in the number of students from regions other than Europe, 35% secured a job in Europe, 28% in Latin America, 12% in Asia and 12% in North America. This is also a clear sign that IE Business School assists students in finding opportunities around the world, by cultivating relationships with recruiters in different regions, facilitating contacts with our vast network of alumni, and by means of the 27 IE representative offices on all continents.
### Placement by Industry

*International MBA Career Report 2014 • 2013-2014 Graduates*
The International MBA Class of 2014 accepted job offers in a wide variety of industries, functional areas and countries, which accounts for the diversity of the salaries. All salaries are reported in Euros, without taking into consideration cost of living, taxes or Purchasing Power Parity (PPP).

4. INTERNATIONAL MOBILITY

A large number of our students come to IE with the aim of moving to another region. Although in some regions such as Europe this is becoming more difficult due to visa regulations, 32% of our students securing a job in Europe (EU) were not originally from the region. Also, Latin America received 14% of students from another region, Middle East 50%, Asia 12% and North America 49%.

IV. INTERNATIONAL MBA CLASS OF 2014 EMPLOYERS

1. RECRUIT AT IE

A large number of companies, organizations and executive search firms come to IE Business School year after year in their search for top professionals, attracted by the quality and diversity of our students and graduates.

We partner with companies across industries and regions to help them identify the talent they need to succeed in today’s complex, competitive business environment, adapting to their needs and recruitment cycles.

The Career Management Center helps companies recruit from junior professionals to middle managers and senior executives, both on and off campus, from our full-time and part-time programs, as well as among our alumni network.

<td></td>
</tr>
</tbody>
</table>
2. RECRUITING PARTNERS

Over 125 companies attended the IE Career Fair organized on the IE campus in October 2014. HR representatives from local and international companies had the opportunity to meet our students, and initiate contacts that led to interviews and selection processes both on- and off-campus. Other companies chose to conduct on-campus presentations or post their job opportunities on our online job board.

Besides making these opportunities available to our students, we urge them to take responsibility in managing their careers, making the most of all the activities we organize to bring them in contact with recruiters at early stages of the MBA.
