Final Decision

After the completion of the interview the Admissions Committee will evaluate all aspects of the candidate’s application as a whole and reach its final decision, which will be formally communicated by e-mail.

1. Admission Granted
Admission is granted to those applicants who meet all program specific requirements and whose profiles match the program. We strongly believe that every candidate who is admitted to IE’s Masters in Finance will be able to contribute greatly to the learning process of their classmates and to the prestigious IE Finance Community in the future.

2. Conditional Admission
Conditional admission is awarded to those candidates who have the right profile for the program but have not yet met some of the mandatory program specific requirements. In this case, normally it means that candidates need to send us the final university diploma and transcripts once they have graduated (for Master in Finance candidates who usually apply to the program before they officially graduate from university), or original/official documents (such as GMAT, TOEFL, CFA certificates, university diploma and transcripts).

3. No Admission
The candidate does not fit the class profile. After receiving notice of non-admittance, the applicant may not re-apply to the program for two years from the date of notification. Admission is valid for two intakes, the one to which the candidate has applied to and the following one. Admission does not guarantee a place on the program. Candidates are therefore recommended to secure a place by paying the place reservation by the deadline stated in the Admissions Contact.
