

dual degree

international MBA +
master in advanced finance

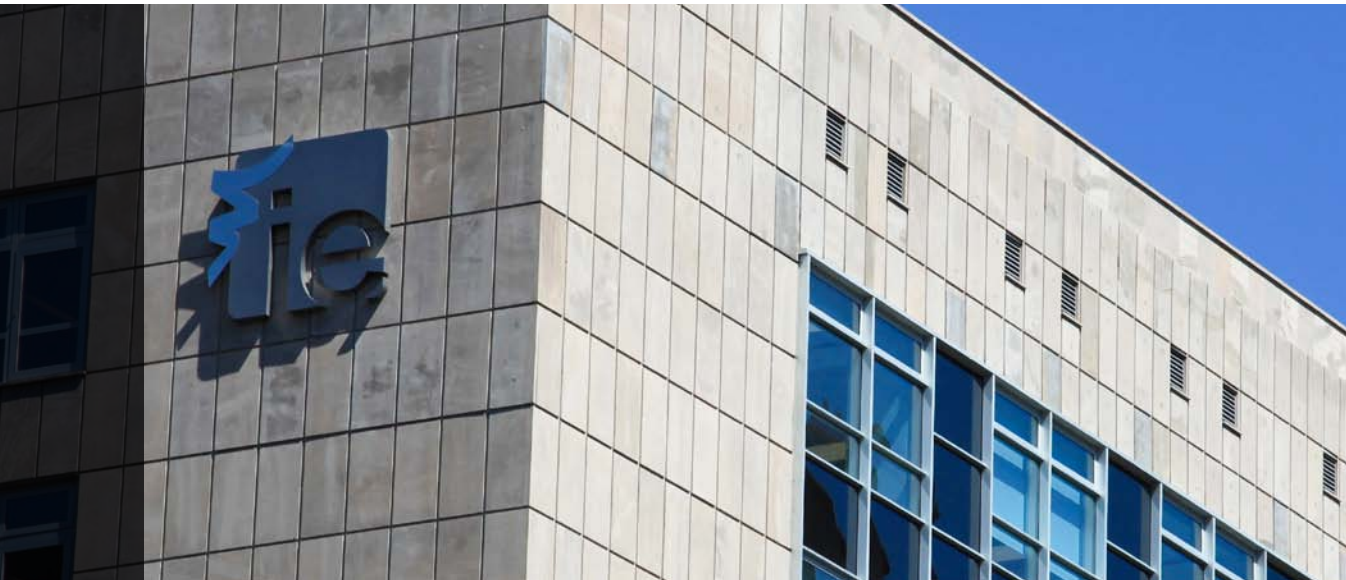

dual degree ^{why the}

international MBA
master in advanced finance + ?

The following are just some of the advantages afforded by the Dual Degree: International MBA + Master in Advanced Finance

- A unique combination of a top general management MBA program and advanced knowledge in the field of finance focused on a syllabus designed by professionals from capital markets to meet the needs of financial recruiters.
- Opportunity to obtain both degrees in only 21 months, less than a traditional two-year MBA program. An ideal solution for professionals who are looking for an in-depth education in finance but at the same time are considering an MBA.
- Suited for professionals or entrepreneurs who aspire to an executive position in the finance sector, in areas such as corporate finance, financial consulting, venture capital and private equity, asset management and public finance. This is thanks to the top management skills offered by the prestigious International MBA and a well-rounded education in finance taught directly by top capital markets professionals.
- The program is also recommendable for those who are aiming for CFO positions.
- The Master in Advanced Finance, which can serve as a platform for students seeking the CFA designation, the most prestigious qualification for finance professionals worldwide.

objectives

Following the dynamic changes that the world has seen in recent years, the financial market increasingly seeks individuals who not only have the best education in general management, but also a competitive understanding of financial markets, new financial products, risk control and the new financial architecture. In response to this, IE has launched its Dual Degree: International MBA + Master in Advanced Finance.

This Dual Degree will combine IE's top-ranked International MBA program with the sophisticated and deep financial education provided by the Master in Advanced Finance, the first CFA Program Partner in Spain, recently recognized as the first CAIA (Chartered Alternative Investment Analyst) Program Partner in Spain, which covers leading edge fields of finance such as corporate social investment, securitization, leveraged buyouts, geopolitics, behavioral finance or Islamic finance, led by a dedicated faculty, 93% of whom are leading practitioners.

dual degree

international MBA +
master in advanced finance

Students start the International MBA program in April and then complete the Dual Degree with the Master in Advanced Finance. The Dual Degree lasts 21 months.

There are several overlapping courses in the IMBA and the MIAF. Given this circumstance, students will be exempt from taking these courses again during the MIAF program. However, students also have the option of taking these courses again if they wish to improve their grades.

Ozgun Senturk
 Turkey, Dual Degree 2010
 Director
 Rabobank International
 London Branch

“ I have to admit that it was not an easy decision to do the Dual Degree after working for 15 years in commercial banking. However, I managed to convince myself after realizing three things. One, it’s never too late. Two, no matter where I work in the future, if my aim is to secure an executive level position I will need to have an in-depth knowledge of finance. And finally, although an International MBA is a great asset, there are plenty of people out there with that very same asset. The rule of the game here is differentiation, and that’s what the Master in Advanced Finance is going to give me. My experience so far has been fantastic, bringing me great satisfaction in terms of knowledge acquisition. Moreover, having seriously smart classmates is making the learning process even more fruitful. ”
