IE Business School operates on a rolling admissions process. As such, there is no explicit deadline for applications for a particular intake. However, given the limited number of places in each program, we recommend that students initiate the application process as far in advance as possible. This is especially important for those who plan on applying for a scholarship due to the limited funds.

The IE Foundation awards tuition funding assistance to talented students in need of financial aid based on merit, distinctive competences and excellence. IE also has agreements with leading Spanish banks to offer students attractive loan packages to finance tuition.
