FINANCIAL AID

We help you open the door to your future
The Financial Aid Office appreciates the opportunity to assist all admitted candidates putting together the best financial plan possible to cover the costs associated with studying at IEU.

In order to assist students our office is supported by the IE Foundation, who thanks to the generous support of students, alumni, partners, donors and several companies and organizations, allow us to expand IE’s distinguished education model to candidates with a high potential but who do not have sufficient resources.

In addition, we have excellent agreements with financial institutions all over the world that allow financing to be adjusted to every specific situation, offering preferential conditions, payments times and flexibility.
The IE Foundation is a non-profit organization which is an integral part of IEU whose goal is the development of activities aimed to benefit the entire IEU community: students, professors, researchers and partner institutions. The IE Foundations’ three main focus areas are:

I. The sustainability of scholarships and support to students.

II. The promotion of academic research, by funding research centers, professorships and projects cooperation with companies and institutions around the world.

III. Assisting academic work through publications, sponsorship of cultural activities and the support of our library and bibliographic resources.

Generous donations from students, alumni, partners, donor companies and organizations make it possible for the IEU community to enrich itself and generate talent that, without any doubt after its transforming experience at IEU, will contribute towards the creation of more talent in the future.
All admitted candidates can apply for scholarships through our online application. Please make sure you apply before the start of your first academic year (deadline July 15th).

How to complete your online scholarship application in 4 easy steps:

1. Once you get admission to one of our Bachelor degrees you can access the financial aid online application with the same user name and password you used to apply for the admission.

2. When you arrive at this step you must select which scholarships you would like to apply for (max. 3). It is important that you choose scholarships that you feel best fit your profile.

3. At this step you must upload the required documents which are indicated on the web page including all financial documentation.

4. At this stage the Financial Aid Committee will evaluate your application and will send you a resolution by email.

Who can access the IE Foundation Scholarship Program?

Any student admitted to IE University (this is a student who completed the admissions process and has received the letter informing them of their admission to a specific Bachelor Degree).

When will I get a resolution?

The Scholarship Committee holds a scholarship approval round on the 15th of each month. Your application will be revised in the round that immediately follows the date your application was submitted.

Is it important to apply before a certain scholarship round?

Scholarship rounds are organized throughout the entire year prior to the You can apply for scholarships before the beginning of your first academic year (deadline July 15th). However, the IE Foundation has a limited annual fund, which is allocated in each of the scholarship rounds, and therefore, the funds available decrease as the year progresses. On the other hand, certain scholarships have a limited number available (e.g. collaboration scholarships from law firms or companies). So it is recommended that you start the application process as soon as you receive admission to IE University.

What are the conditions for annual scholarship renewal?

The Scholarship Committee will review every July the academic performance of the students awarded. In the event of a satisfactory performance, the scholarship will be automatically renewed for the following academic year.

For more information about terms and conditions please visit our website.

My parents earn high salaries; can I still apply for a scholarship?

It is understood that even though your parents’ income is not minimal, it is possible that your family has other expenditures that may be quite costly, such as those needed for large families, the cost of siblings’ education, extraordinary expenses, etc. When thinking about applying, you should consider these situations with your family first.
This is a brief description of the main scholarships in the IE University student Scholarship Program.

LOANS

Invest in your future. Is there a better investment?

IEU has various financing agreements for students. The goal of IEU is to help students that wish to obtain a loan with favorable financial conditions. Thanks to the collaboration of some of the biggest financial institutions in Spain and with more around the world, IEU can offer students loans with competitive interest rates and repayment periods up to 10 years.

Keep in mind while creating your financial plan that although you can ask for a loan for the quantity you desire, the risk committee of any of the financial institutions that we work with, do not always approve the quantity you request. For this reason we recommend you apply for a loan as soon as possible, this will dispel any doubts and allow you time to reconsider or modify your plans. All students can apply for loans with our partner financial institutions directly via the Financial Aid office.
