- ❑ Students can use the Quickly Attendance App to check into class and to view their attendance records.
- ❑ Available on [Apple Store](#) and [Google Play](#).
- ❑ Students log into the app by searching for and selecting their school name.
- ❑ Student will use their Blackboard credentials to login and authorize the app to access their account.

Quickly Attendance – Students Guide

- ❑ If after first successfully access using app, and depending on your mobile settings, when trying to login you reach directly to IE credentials webpage but access into app is not working, then you should try clicking on “Back” option to get back to school name selection page and continue with login process as explained before.

The screenshot shows the login interface of IE University. At the top left, there is a grey bar containing a green-outlined button labeled '← Back'. Below this bar is the IE University logo, consisting of a blue dot above the letters 'ie'. To the right of the logo, a purple-bordered box contains the text 'Tip: if credentials doesn't work, click on "Back"', with two purple lines pointing from the box to the 'Back' button. Below the logo, the text 'Inicie sesión mediante su cuenta organizativa' is displayed. Underneath this text are two input fields: the first is labeled 'E-mail' and the second is labeled 'Contraseña'. Below these fields is a checkbox labeled 'Mantener la sesión iniciada'. At the bottom of the form is a blue button labeled 'Iniciar sesión'. In the bottom left corner of the page, the full IE University logo is shown, with 'ie' in blue and 'UNIVERSITY' in black capital letters below it.

Quickly Attendance – Students Guide

- ❑ Students can access a menu of options including check in, attendance record, log out, and help.
- ❑ Also can access to active check in processes.
- ❑ Students log into the app by searching for and selecting their school name.
- ❑ Student will use their Blackboard credentials to login and authorize the app to access their account.
- ❑ At the end of check in process we recommend to close session using *Log Out* option from the menu.

Quickly Attendance – Students Guide

- ❑ If the instructor has required the student to scan a QR code to complete check in, the app will open the QR scanner for the student to scan the QR code the instructor displays.

- ❑ If the instructor has required a PIN be entered to complete check in, the student will see the screen below. They will enter the appropriate pin and click the “check in” button.

Quickly Attendance – Students Guide

- ❑ After successfully check in, you will receive a confirmation message.
- ❑ QR code is refresh every 2-3 seconds. If scanning QR code doesn't match at first shot, you will receive a message like *Something went wrong...* and we recommend repeat QR code scanning process.

Qwickly Attendance – Students Guide

- ❑ You can request your attendance record using app (throw menu option) or from the course inside Blackboard throw the option *Qwickly Attendance*.

A screenshot of the Blackboard Attendance Record table. The table has two columns: "Session Title" and "Status". The "Status" column contains green dots followed by the word "Present". A callout box with an arrow points to the "Status" column header, labeled "Attendance record on Blackboard".

Session Title ▾	Status ▾
Apr 04	● Present
Foro 1	● Present
Sesión 1/Abril 2	● Present
Apr 01	● Present
Mar 31	● Present
Mar 29	● Present

Quickly Attendance – Students Guide

- ❑ At the end of check in process we recommend ending session using *Log Out* option.
