Opportunities & Challenges

Talent & Careers

Talent & Careers brings all areas of the world of work one step closer to students: opportunities and company events suited for all career areas.

Internships

Internships are an opportunity to gain market exposure for junior profiles. In your field of expertise or in a different field. To put your MIMS into practice!

Events & Opportunities

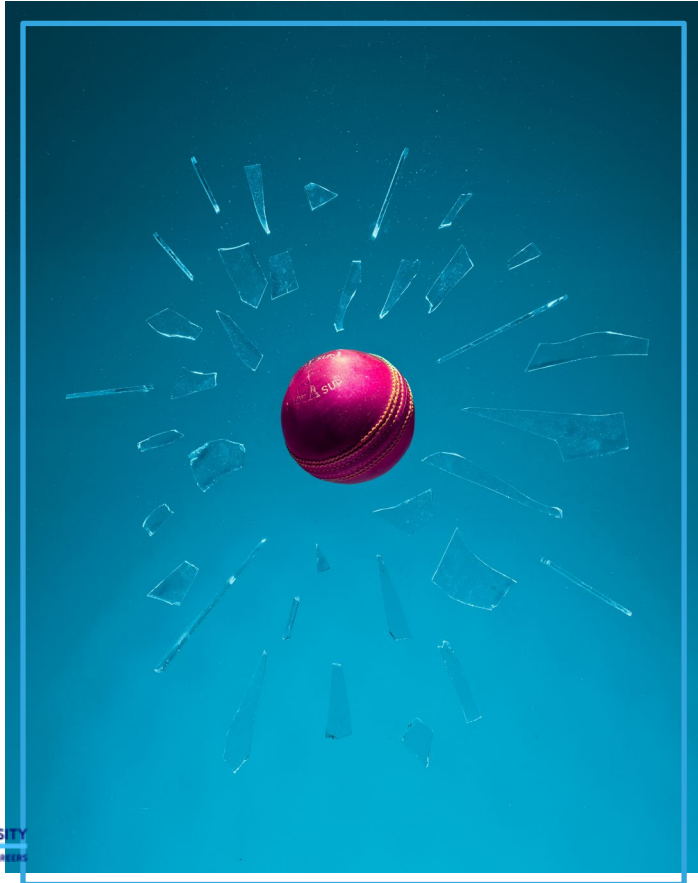

T&C company events are multicompany (Careers Forum) and single-company events, are geared towards full-time opportunities, and internships. Gather info for both types of opportunities.

Career Discovery Advisors

CDAs will advise which internship is suitable to the students' target goals. See Myth Busting around Internships section.

Myth Busting

“An internship is not relevant when I already have work experience”

“Finance and Consulting do not offer internships in the Summer period”

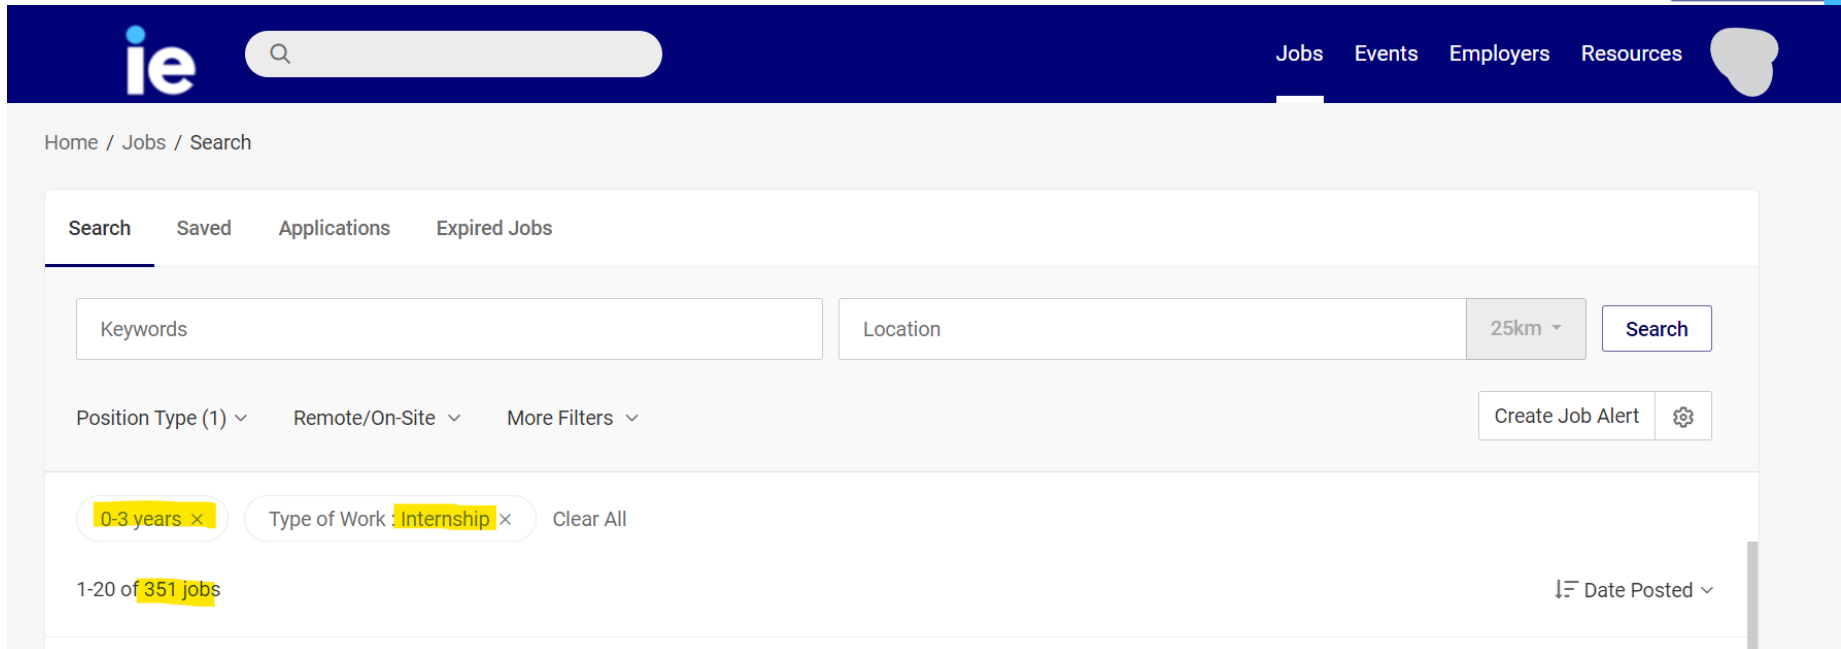

“I want an internship for the salary”

“Internships are less competitive than full-time jobs”

“I will not find an internship that I like”

Talent & Careers resources

CAREER PORTAL

The screenshot shows the search interface of the IE University Career Portal. At the top, there is a dark blue navigation bar with the 'ie' logo on the left and a search bar. To the right of the search bar are links for 'Jobs', 'Events', 'Employers', and 'Resources'. Below the navigation bar, the breadcrumb 'Home / Jobs / Search' is visible. The main search area includes tabs for 'Search', 'Saved', 'Applications', and 'Expired Jobs'. There are input fields for 'Keywords' and 'Location', with a '25km' dropdown and a 'Search' button. Below these are filter options: 'Position Type (1)', 'Remote/On-Site', and 'More Filters'. A 'Create Job Alert' button with a gear icon is also present. The current filters are '0-3 years' and 'Type of Work : Internship', with a 'Clear All' button. The results show '1-20 of 351 jobs' and a 'Date Posted' dropdown menu.
